

Job opening:

## Application Specialist XRF/XRD

Malvern & PANalytical Nordic is looking for an XRF/XRD Application Specialist, who, after a training period, will be responsible for the support of sales and after-sales (training) from a technical-scientific point of view. Furthermore he/she is expected to deliver input for the innovation and optimization of solutions and after sales support in order to recognize sales and enable customers to use the Malvern & PANalytical solutions. The candidate will report to the Business Manager.

### Job Description

- Provide training and commissioning of customer systems;
- Support the sales team (specifications, demo's, expertise, conferences and exhibitions).

### Job Requirements

- Master or PhD in Geology, Chemistry or Materials Science;
- Min. 3 yrs XRF and/or XRD applications related experience (applications, software and instruments) including samples preparation;
- Competences: Excellent communication but also selling and teaching skills. Fluent in preferably one or two of the Nordic languages incl. Finnish. Moreover excellent English is a must;
- Organized and able to work autonomously against deadlines;
- Frequent travelling in the Nordic area;
- Based preferable in the Uppsala/Stockholm region but other areas in the Nordic region will be considered depending on the suitability of the candidate.

### We Offer

- An interesting job in an international high-tech company;
- Long-term career prospects and support in personal growth;
- Continuous development of your technical skills;
- Competitive benefits, salary and company car.
